Subject: internal EPA discussion - ORR dispute implementation team
Location: Microsoft Teams Meeting
Start: 3/12/2021 8:00:00 PM
End: 3/12/2021 8:45:00 PM
Show Time As: Busy

Required Attendees: Adams, Glenn; Jon Richards; Alexander, Shanna; Froede, Carl; Frederick, Tim

Hate to do this on a Friday, but...

I want to flesh out the questions/issues that we need to clarify regarding dispute implementation before the next DRAFT meeting.

- 1) Clarify the use of a dilution factor in extrapolating from instream level at the point of exposure to an effluent number at the point of compliance (i.e. intent of the decision)
- 2) Assimilative capacity – how that is determined
- 3) Others

I realize that #1 will need HQ input and #2 may need Waster Division input, but I'd like to develop our questions a little better before reaching out to HQ and Water Div.
